World Cup COMPETITION – The course will include 10 pairs of cones and two obstacles with gates up to E. The course may include a bridge which can be driven in both directions.

The competition will be run in classes, each one at a time, and in number order.

The competitors will have the opportunity to inspect the course prior to their competition start, 15-20 minutes. Then each driver in turn will be allowed a timed practice run. And finally then have two timed runs. There will only be one start and finish gate and once the Bell/Horn is sounded the competitor has 45 seconds to start his course. As space is limited in this book a full set of rules will be issued to each competitor on the day.

Each run will be timed from the start flags through the cones and obstacles in order and to the finish flags in seconds, to 100th secs. Every ball knocked off will add 5 seconds to the time. 20 seconds added for corrected course and elimination for uncorrected course.

Final positions will be determined by the sum of the two timed runs plus any penalty times added together with the winner having the lowest time.

Entry Fee £25
